
Mint condition 1990 K1 for sale

Posted by Bill Patterson - 2010/02/16 12:18

I am posting this on behalf of a friend in PA - this is what he has to say:

1990 K1 - Ketchup and Mustard (Red/Yellow)

Too many toys in the garage! Mint condition. Collectible. 27k miles, majority highway. Garage kept and has never seen rain. Includes original rider's seat pillion, rear saddle bags, owner's manual, tool kit, and keys.

First offered in 1990, the K1 was a revolutionary bike for BMW which quickly became the Motorcycle of the Year. And for good reason. It featured such innovations as wind-tunnel designed bodywork, paralever suspension, full ABS brakes, custom Antera wheels, and a powerful 4-cylinder engine. Only about 6,900 bikes were ever made and only an estimated 600 were imported into North America. Red/Yellow is arguably the best example of this special breed.

Aftermarket options lovingly applied include clearcoat paint (to protect the original paintwork), daytime running lights, air horn, OEM BMW logo reflectors, high-intensity driver's light, and auxiliary 12V jack. Features a new master cylinder and battery. This bike is well suited as either an addition to your collection or as a daily driver for the connoisseur.

EMAIL FOR PIX Scammers and foreign buyers, please don't bother.

Price: \$7,500

Location: Villanova, PA
