Here's what Tom Brown said about this ride:

"This has to be one of the best motorcycle outings one can attend. Those who have never been are missing the best of what our Association offers its members. Riding endless miles of nearly abandoned, spectacular roads at your own pace, whatever it may be, is the true joy of our sport. The bucolic rural scenes and rich greenery along the way add a texture that you just can't find in the western states. The added benefits of familiar faces, kindred spirits, great accommodations in a charming small city that's a reasonable riding distance from home makes it really the perfect long weekend."

Kamp Koegel will be open again this year and we are looking forward to seeing old friends and making new ones. Everyone is welcome. With the exception of Prez Barta and Greg Chambers who have standing site reservations it is first come first stake for the few flat spots but my G.I. Doc says sleeping on a "slight" slant is good for the system :silly: Firewood is stacked and ready. Hoping for another beautiful weather weekend...that would make four in a row! See you all soon!
