
Charging my battery on a K75

Posted by Dean Lindeman - 2010/03/15 22:12

I was reading in my service manual that you can cause harm to your bikes electronics if you charge the battery while it is on the bike and hooked up. Can I use a floating charger to maintain the battery between rides or will I regret it?

Yes (you can use a floating charger, e.g. Battery Tender or equivalent);

No (you won't regret it: I do this all the time)
