
LED running/brake/turn lights for R100RT (1980)

Posted by John Stys - 2010/08/17 13:27

Hi folks,

I'm new to BMW and a also a new rider in general. I picked up a 1980 R100RT and am looking to upgrade the brake light and turn signal with some brighter LEDs. Any suggestions for specific products? I'm looking for something rather simple that a novice like me could install.

Best,

John
